

## HIGH-DENSITY DUAL BAND BASE SECTOR ANTENNA

# WiBOX SA M4DBC245-120-8V

Wireless Instruments four element **MIMO 4x4 2.4/5 GHz dual-band** antenna for Wi-Fi is rugged and high-performance panel for outdoor and indoor applications. **WiBOX SA M4DBC245-120-8V** is 4-Element Patch Antenna predicted mainly for high-density installations where high gain and wide beamwidth is required. The system offers relatively high gain with wide horizontal beam and low F/B ratio, which makes it unique solution on the market. The antenna is designed to work with 2.4-GHz/5-GHz Access Points (like Cisco, Aruba, Huawei and others), offers IP67 for whole system and No. 4 of RP-SMA/U.FL/MMCX pigtailed in the installation box. The antenna is integrated with **WiBOX Medium** enclosure by Wireless Instruments which offers the installation compartment for electronic stuff. **WiMount** mounting system which comes with the antenna enables wall or mast mounting.

**NOTE: The installation compartment is limited to 4cm due to the antenna construction.**
