

BASE SECTOR ANTENNA

WiBOX SA M5-90-17HV SLIM RBR

WiBOX SA M5-90-17HV SLIM RBR is an **H&V polarity MIMO 2x2 sector antenna** operating at a frequency range of: **5.1 - 5.95 GHz** with **17 dBi** gain. Wireless Instruments technical division developed special radiator **RBR (Reduced-Back-Radiation)** which minimizes **F/B (Front-to-Back)** factor, so this eliminates **co-location** problem. Additional big advantage is that the electronic radio board installed inside **WiBOX** is **fully shielded by the special made metal cover**. The antenna is predicted for **point-to-multipoint (PMP)** connections, can be used for covering medium and big areas as a **base station** for client stations or as the **hotspot in halls, stadiums or another public places**. It can work **indoor and outdoor (IP 67)**. It works with the **WLAN 802.11n/ac** systems. The antenna is integrated with the top quality **WiBOX Extra Large Slim** box system.
