

PTP/CLIENT ANTENNA

WiBOX PA MMB1727-8X

WiBOX PA MMB1727-8X is designed especially for mobile cellular systems **3G, 3.5G, 3.75G** and especially **4G - LTE** as an **8 dBi** dual polarization client antenna (**CPE**). Due to small gain, it can be used on short and medium distances in **point-to-multipoint (PMP)** topology as the client antenna or for **hotspots in schools, stadiums, offices or some public places**. The **X-polarity (slant)** helps for establishing links in interfered environments. Can work also with **mobile devices**. Its wide range of work permits to operate in the systems such as **WLAN 802.11 b/g/n, UMTS, LTE, WiMAX**. Due to an innovative antenna design with great parameters it enables to work in a wide range of frequencies for **LTE** systems: **band 1, 2, 3, 4, 7, 9, 10, 23, 25, 33, 34, 35, 36, 37, 38, 40, 41**. The system can operate **indoor and outdoor (IP67)**. The antenna is integrated with the top quality **WiBOX Medium**. It comes with 2 x SMA connector.

NOTE: The installation compartment is shorter than in the standard type of antennas (due to the antenna construction) - 35 mm
